

Dear Star Citizen Gamer,

Welcome to Stargate Command!

Thank you for allowing us to be your community of choice within the Star Citizen 'verse! We have built a gaming community that offers a variety of gameplay styles, highlighting both hardcore and casual gaming opportunities, with both military and an open private sector design. We understand that not all gamers are here for combat, nor do gamers want to be tied to just doing one thing.

So, we have arranged a completely open design structure in our private sector so that you can participate in what you want to do – whenever you want to do it. All while maintaining a family friendly communication style. We are all here to have fun and have decided that this is best when gaming with a community of members who share common values and goals. We plan to carve out a section of the game where we can support each other and enjoy common experiences together.

Star Citizen is the most complex game experience yet, and to be successful in this game, players will need to engage with the game communities, called "organizations" in-game, in a variety of ways. Even those who choose not to join an organization will be seriously impacted by them, there will be no way to avoid it. Aligning with a solid organization can provide significant benefits since it will be very difficult to flourish without the backing of others.

This document was put together to help you in getting started with Stargate Command as your chosen organization in-game. If you don't have access to the game yet and have not setup an account with Roberts Space Industries (RSI), then please use this link to get started there first. This link is a referral link that will provide you with 5,000 extra gaming credits as a bonus when you select your package for the first time.

[Sign Up for the Game and Receive 5,000 Bonus Credits](#) - or - use code: [STAR-ZHHQ-7KXP](#)

Once you have selected a star citizen package that provides access to the game, or if you already have a game package, you can follow these steps below to get setup in our Stargate Command gaming community.

Looking forward to playing with you! See you in the 'verse!

Cheers,

*Ethan Hunt*

Organization Director  
Stargate Command

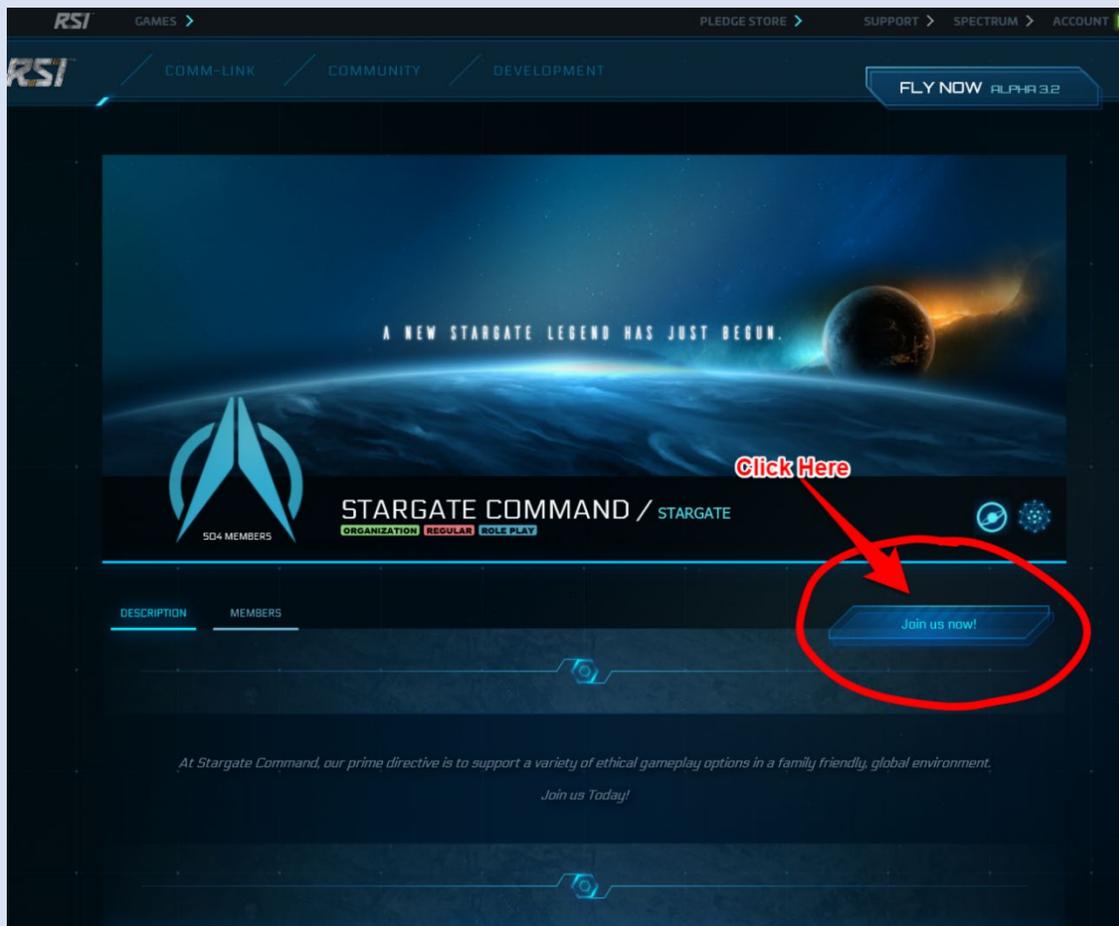

# STARGATE COMMAND

NOTE: These steps assume that you have access to the Star Citizen game. If you do not have access, please read the letter above for a link to get started.

## STEP 1 – JOIN THE ORG ON RSI

Click on this link: <https://robertsspaceindustries.com/orgs/STARGATE>

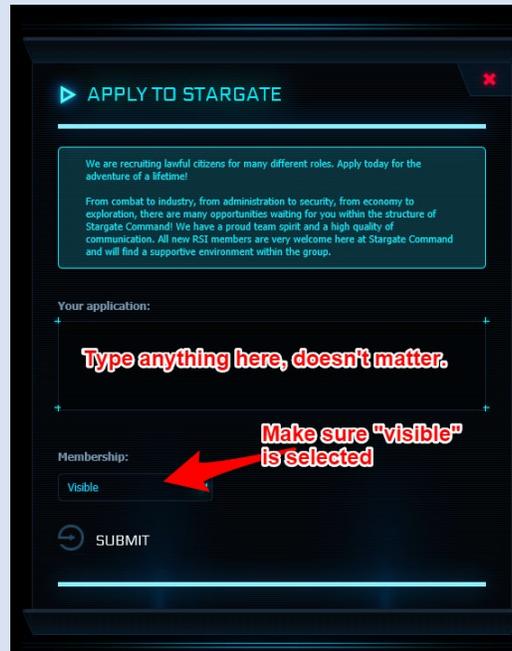

Then, click on “Join us now!”

NOTE: If you already are a member of another organization, you can still do this. However, we will not accept your application if you are part of any pirate organizations or other known problem organizations. However, if you are looking to eventually becoming an officer with us, Stargate Command must be listed as your “primary” or “main” organization. This “main” setting can be set in your profile after your application is approved.

# STARGATE COMMAND

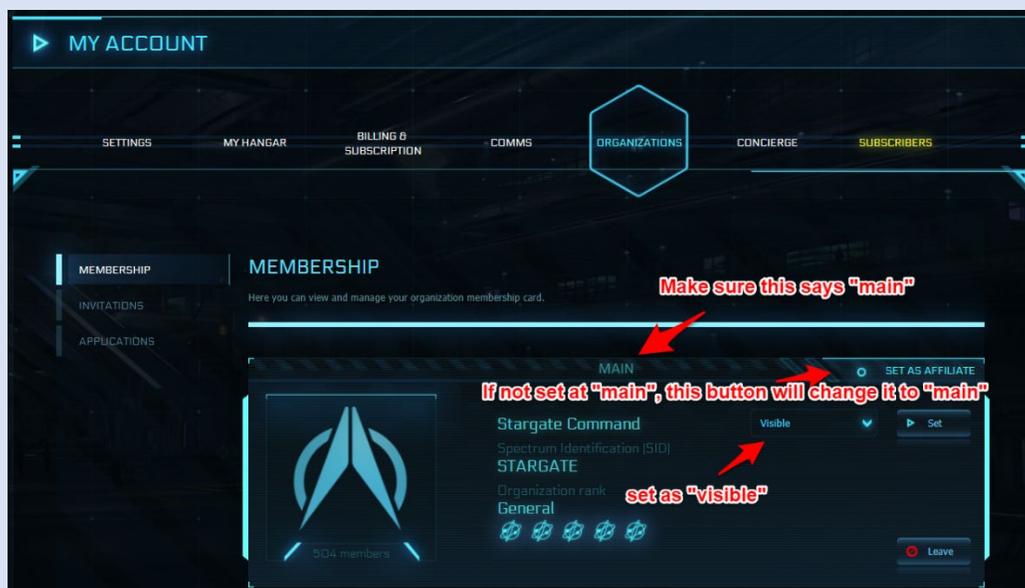

Next, this box will pop up. Type anything in the "Your Application" box, this is superfluous, doesn't matter what you type.

The screenshot shows a dark-themed application form titled "APPLY TO STARGATE". It includes a red 'X' close button in the top right corner. The main text reads: "We are recruiting lawful citizens for many different roles. Apply today for the adventure of a lifetime! From combat to industry, from administration to security, from economy to exploration, there are many opportunities waiting for you within the structure of Stargate Command! We have a proud team spirit and a high quality of communication. All new RSI members are very welcome here at Stargate Command and will find a supportive environment within the group." Below this is a text input field labeled "Your application:" containing the red text "Type anything here, doesn't matter." Underneath is a "Membership:" section with a dropdown menu currently set to "Visible". A red arrow points to this dropdown with the text "Make sure 'visible' is selected". At the bottom is a "SUBMIT" button with a circular arrow icon.

Step 2 is now finished. Once the org accepts your application, you will see Stargate Command appear in your org settings pane:

<https://robertsspaceindustries.com/account/organization>

The screenshot shows the "MY ACCOUNT" page with a navigation bar including "SETTINGS", "MY HANGAR", "BILLING & SUBSCRIPTION", "COMMS", "ORGANIZATIONS" (highlighted with a hexagon), "CONCIERGE", and "SUBSCRIBERS". The "MEMBERSHIP" section is active, showing a list of organizations. The first entry is "Stargate Command" with a "MAIN" status and "Visible" visibility. A red arrow points to the "MAIN" status with the text "Make sure this says 'main'". Another red arrow points to the "Visible" dropdown with the text "If not set at 'main', this button will change it to 'main'". A third red arrow points to the "Visible" dropdown with the text "set as 'visible'". The "Stargate Command" entry also shows "Spectrum Identification (SID) STARGATE", "Organization rank General", and "904 members". A "SET AS AFFILIATE" button and a "Leave" button are also visible.

## STEP 2 – FILL OUT SIMPLE GOOGLE FORM

This step is so easy, it's a waste of time to provide instructions. Just click this link, fill out the quick form, and submit. Takes 60 seconds. Simple.

[Basic Information Form](#)

## STEP 3 – CONNECT TO DISCORD

Do you use Discord? Hope so, it's our primary communication platform. You can download this to your PC or your phone or both. We suggest you stay connected as we are constantly running threads there, it will keep you up to date and allow you to interact freely with the community. Also, there are voice channels in Discord that you will be using when playing with us.

To download Discord for free, click here: [Download Discord - it's Free!](#)

AFTER you install discord, you will need to go to this link to get a connection link for our Stargate Command Discord Server.

[Stargate Command on Spectrum - Announcements Thread](#)

Look at the announcements and find the link for our Discord Server. Click it and if you have Discord installed, it will connect you to our sever automatically.

NOTE: You might want to bookmark this Spectrum URL for future use since Spectrum is being developed by RSI as their primary communication platform in-game. Maybe someday it will replace Discord.

## ALL FINISHED!

If you have any questions, please go to Discord or Spectrum and let us know. You will see people getting in and out of Discord as it makes sense for their day. Feel free to post images and in-game footage that you capture and get involved with the conversations. Welcome to SGC!

[See you in the 'Verse!](#)
